

24-port ODF patch panel for optical cable management

Overview

Featuring 24pcs LC duplex adapter (or 24pcs SC Simplex adapter) ports, this patch panel supports up to 48 optical fibers and is ideal for structured cabling systems in data centers and telecom environments. Fiber Patch Panels combine Fiber Splicing, Termination, Routing, Fiber Connector/Adapters, and Fiber. A 24-port SC simplex version means it supports up to 24 fibers using SC simplex adapters •Modular design for easy expansion and maintenance •Supports splicing, termination, and patching in one unit •Sliding trays for convenient access to fibers •Suitable for backbone, central office, and data. The ODF-HL24-24SC/PJ Fiber Optic Patch Panel is a high-performance solution designed for efficient fiber optic splicing, distribution, and management. ODF series are standard 19 "rack mount chassis with integrated fiber optic fusion with a unit box, they are easy to install and operate, flexible, and can adjust the position by the mounting ears to meet the front, mid, and ends installation requirements,ideal for ODN deployment. Rack-mount, wall-mount, and sliding patch panels for high-density fiber management — 12 to 288 ports.

Cornet | Fiber Patch Panel (ODF) 24 Port

- Modular design for easy expansion and maintenance.
- Supports splicing, termination, and patching in one unit.
- Sliding trays for convenient access to fibers.
- Suitable for backbone, central office, and

Patchbox ONE 30RU Cat.6a

patchbox.one / 30RU / Cat.6a Keep your network rack organized in the long term and downtimes at a minimum with the patchbox.one, consisting of 24 retractable cables (available as Cat.6a and Fiber

24 Port Optical Distribution Frame ODF

24 Port Optical Distribution Frame ODF, Excellent cost control, far exceeding the sales volume of peers, this is a product loved by customers.

Fiber Optic Patch Panel — Rack Mount ODF | TTI Fiber

1U Rack Mount ODF Standard 19-inch 1U rack-mountable fiber optic patch panel with up to 24 LC or 12 SC ports. Sliding tray design with integrated splice tray for easy fiber termination and patching in data

24 Ports OM4 ODF Multimode Fiber Optic Patch Panel 1U 19" Rack

It typically contain several ports or slots into which fiber optic cables can be plugged, allowing for efficient and organized cable management. The primary function of an ODF is to distribute optical
