

50kWh wall-mounted energy storage cabinet for use in intelligent computing centers

Overview

This 50kW/50kWh battery system includes ten LiFePO₄ modules, a 50kW inverter, and a smart EMS/BMS, all housed in a compact IP54 cabinet. It delivers reliable storage for peak load shaving, solar optimization, or backup support. The BATTLINK 50kWh C&I Energy Storage System optimizes energy use for businesses by reducing costs, enhancing efficiency, and ensuring reliable power. With smart monitoring, modular scalability, and multi-layer safety protection, it supports on-grid, off-grid, and microgrid applications. Built for commercial use, the system is robust, space-efficient, and. When commercial facilities face rising demand charges and grid instability, the CICS-50SC provides 50 kWh of intelligent battery storage to cut peak costs by 30-60%. Meanwhile, it can serve as a superimposed basic base or module for industrial products, such as modules for charging vehicles. Its modular architecture allows flexible deployment for a range of applications, from commercial to industrial.
