

Base Station Outdoor Integrated Power Distribution Box

Overview

This Integrated Cabinet for Telecom Equipment is designed for outdoor telecom applications, incorporating power distribution units, thermal management (AC or fan), standard 19-inch mounting racks, battery trays, and remote monitoring modules. Designed for long-term reliability, it provides a controlled and secure enclosure that ensures stable operation for base stations. This Hybrid Outdoor Telecom Enclosure is a fully integrated, weatherproof cabinet designed to house telecom power systems, batteries, and network equipment in outdoor environments. It features protection functions including short circuit, overload, overvoltage, and leakage. With a compact size. This 28U outdoor power distribution cabinet is designed for telecommunications, power, and outdoor energy systems, offering excellent protection and intelligent monitoring.
