

Bulgarian 850nm laser diode model

Overview

The model LD4B-850-FP-50 is a Fabry-Perot laser diode offered in a single mode fiber-coupled butterfly package with an internal TE cooler, 10K thermistor and photodiode. The fiber is terminated with an FC/APC connector; please refer to the data sheet or contact us for information on fiber connector. We offer fiber-coupled laser diodes for the most demanding scientific and industrial applications. Diode.
