

GYDTS Optical Cable Price

AI Overview

GYDTS optical cables typically range from \$0.50 to \$3 per meter depending on fiber core count, type, and supplier.

Price Overview The cost of GYDTS optical cables varies based on fiber core count, cable length, and specifications:

- 2 to 12 cores: Prices generally start around \$0.50–\$1.50 per meter for standard single-mode outdoor cables suitable for duct or aerial installation.
- Higher core counts (up to 288 cores): Prices can increase to \$2–\$3 per meter due to additional materials like steel tape armor, water-blocking gel, and polyethylene jackets.

Customized options: Suppliers offer tailored lengths, fiber types (single-mode G652D or multimode), and armored or non-armored variants, which can affect pricing.

Specifications Affecting Price

- Construction:** GYDTS cables feature loose tubes with water-blocking gel, a central metal strength member, and optional steel tape armor for mechanical protection.
- Outdoor suitability:** Designed for duct and aerial applications, resistant to moisture and environmental stress.
- Fiber type:** Single-mode fibers are common for long-haul and high-speed networks, while multimode fibers are used for shorter distances.
- Diameter and jacket:** Cable diameters range from 6mm to over 10mm depending on core count and armor, with polyethylene jackets for durability.

Supplier Examples

- Alibaba:** Offers wholesale GYDTS fiber optic cables with flexible core counts and lengths, suitable for international shipping.
- Made-in-China:** Vendors provide 2–12 core single-mode outdoor cables, with options for customized lengths and fiber brands.
- Specialized suppliers:** Companies like Hongan and YCICT provide high-core-count cables (up to 288 cores) with steel tape armor and water-blocking features for backbone networks.

Practical Considerations

- Bulk orders:** Prices per meter often decrease with larger quantities.
- Installation type:** Aerial or duct installation may require armored cables, slightly increasing cost.
- Shipping and import:** International suppliers may add shipping fees, customs, and taxes.

In summary, GYDTS optical c...
