

High-density optical cable take-up and drop-out frame low-temperature resistant in stock

Overview

The OptiTip[®] assembly is designed for use in outside plant fiber access networks with FlexNAP and OptiSheath[®] MDU and Fiber Distribution terminals. Telect designs and manufactures high-density frames, rack-mount bulkhead panels, tray-based solutions, wall or. CommScope offers a variety of easy-to-install frames, racks and cabinets specially engineered for network equipment and fiber cable management. The FACT[®] optical distribution frame (ODF) solution from CommScope is a compact, customizable, and fully front-accessible solution that maximizes usable density. The FACT solution includes four modular frame versions utilizing intuitive clear cable routing and the ability to add adaptor packs. World-class craft-friendly Fiber Optic Management Products are expertly engineered to help service providers reduce the high costs associated with deploying, managing, protecting, and scaling a fiber optic network. Perfect for severe environments, sterling Cabinets, Enclosures, and Wall Boxes. Pre-terminated drop cable assemblies significantly reduce installation time and the need for specialized splicing equipment at the customer premises.

Article Content

High Density Optical Distribution Frame

Reliable cable fixture cover and earth protection device provided. Integrated splice and distribution unit is adopted. Each unit holds up to 12 FC/SC Simplex adapters and up to 12 LC Duplex adapters. All
