

How much does a Huawei 1 4 beam splitter cost

AI Overview

The Huawei OSPL43201 1:4 optical splitter typically costs between \$20 and \$50 per unit, depending on vendor, quantity, and shipping options. The Huawei OSPL43201 is a compact 1:4 PLC optical splitter with SC/APC termination, designed for high-performance fiber optic networks. Prices vary based on the supplier, order volume, and shipping location. For example, specialized distributors like router-switch.com and Shenzhen Uonel Technology Co., Ltd. offer the OSPL43201 with competitive pricing, bulk discounts, and international shipping. Factors Affecting PriceQuantity: Bulk orders often reduce the per-unit cost. Shipping: International shipping and handling fees can increase the total cost. Vendor: Authorized distributors may charge slightly more but provide warranty and verified authenticity. Product Configuration: Bare optical splitters may be cheaper than pre-assembled or boxed versions. Where to BuyRouter-switch.com: Offers genuine Huawei OSPL43201 splitters with fast shipping and warranty support. Alibaba / Shenzhen suppliers: Provide both single units and bulk orders, often with flexible shipping options. Other authorized Huawei distributors: Can provide real-time inventory and pricing for procurement planning. For the most accurate and up-to-date pricing, it is recommended to contact the vendor directly via live chat or email, as prices fluctuate with supply, demand, and shipping conditions.
