

How to save data from an ODR Optical Fiber Optic Transmission tester

Overview

Most OTDR devices offer options to save your results directly to the internal memory or an external storage medium such as a USB drive. SDF (standard data format) or TXT is used to make it compatible with other software tools easier. If you're using an Optical Time Domain Reflectometer (OTDR) for network testing, you've probably asked yourself, "How do I save, export, and analyse OTDR test results?"

" The good news is that it's easier than it sounds. Let's break it down so you can get the most out of your OTDR without any. The first step you should take is to download and install the LinkWare PC Cable Test Management Software. This is the software used to change the raw test files from the Versiv into a readable report, whether that's a. Test existing OTDR traces in virtual environment with user selected OTDR parameters. □ Use the Product only as specified or hazardous laser radiation exposure can occur.
