

Lighting Distribution Box 48

Overview

48 Port Fiber Distribution Box provides 16, 24, 32 or 48 SC ports in a traditional two-layer design – a rear splice area for cable slack and splice protection, and a front interconnect area for SC ports. The FDB-48 is suitable for indoor or outdoor FTTX applications that support up. Expertly combining reliability with an attractive design, the robust surface and flush mounted modular enclosures provide a simple, effective and aesthetically pleasing enclosure solution for commercial and high-end residential buildings. Enhanced level ergonomics for installers. Attractive design. SX offers reliable, factory-direct Lighting Power Distro solutions. High-quality, customizable options at competitive prices for all your lighting needs. The images are a representation of the product. Based on our REDline Power Boxes platform, we offer standardized power distribution solutions. Elevate Your Lighting Control: Wired for Precision with DALI2.
