

Photovoltaic combiner box price information

AI Overview

PV combiner boxes typically range from \$30 to over \$800 depending on string capacity, features, and brand. Price Ranges by Type and Capacity

Small residential boxes (2–4 strings): Prices generally range from \$30 to \$150. Examples include 4-string PV combiner boxes with 15A fuses and IP65 waterproof ratings priced around \$65–\$85 on eBay and Lowes.

Medium capacity boxes (6–8 strings): These are priced between \$150 and \$350, suitable for larger residential or small commercial systems. For instance, a 6-string metal combiner box with surge protection and 63A breakers can cost \$183–\$227.

High-capacity or industrial boxes (10–24 strings): Prices can range from \$250 to \$822 or more, depending on features like IP65/IP66 ratings, surge protection, and pre-wired configurations. A 12-string PV combiner box is listed at \$822 on ATO.com, while 24-string IP65 waterproof boxes are priced around \$228–\$258 on Alibaba.

Factors Affecting Price

- Number of strings:** More input strings increase the cost due to additional fuses, breakers, and busbars.
- Current and voltage rating:** Higher-rated boxes for industrial or utility-scale systems are more expensive.
- Material and durability:** Metal enclosures with IP65/IP66 ratings cost more than plastic versions but offer better weather resistance.
- Safety features:** Boxes with surge protection, lightning arresters, and pre-installed breakers are priced higher.
- Brand and warranty:** Established brands like Midnite Solar, Outback, and VEVOR often charge a premium for reliability and support.

Buying Tips

- Match box capacity to your PV system:** Avoid oversizing or undersizing to optimize cost and safety.
- Consider pre-wired vs. DIY wiring:** Pre-wired boxes save installation time but may cost more.
- Check IP rating:** For outdoor installations, IP65 or higher is recommended to prevent water and dust ingress.
- Bulk purchases:** Industrial or com...
