

Power Pole Fiber Optic Cable Core Reel

Overview

This reel keeps optical fibers safe. The 250µm buffer protects each strand. It prevents kinks exceeding the 30mm minimum bend radius. The hub design prevents. Fibre optic cable reels with different barrel diameters and winding widths. The barrel is coated with PE foam Do you have any questions?

Our quality management system has been ISO 9001-certified since 1997, and our environmental management system has been ISO 14001-certified since 1999. In October. Fulfills the toughest specifications of harsh environment fiber optic systems in the world today. Cable drum made of sheet metal with auxiliary spool for storing and safely transporting all types of lines and wires. The military cable reel has options to contain fiber optic. Our selection of Fiber Optic Cable Reels features only the best products available on the market that exemplify the characteristics necessary to enhance the installation process. Any type of damage minimizes or even makes the installation obsolete.
