

Price List of Armored Bundled Optical Cables

AI Overview

Armored optical cables typically range from \$1.15 to \$6.50 per meter, depending on fiber type, armoring, and supplier specifications. Price Ranges and Supplier Examples

Standard armored fiber cables with steel tape or rodent protection generally cost \$1.15 – \$6.50 per meter, reflecting differences in materials, LSZH vs. PVC sheathing, and fiber quality. Bulk industrial suppliers offer competitive rates for large-scale projects:

- Hebei Yongshang Energy Technology Co., Ltd.: \$1.75/meter for orders over 5,000 meters.
- Shanghai Hongsheng Wire & Cable Co., Ltd.: \$1/meter for standardized medium-voltage projects.
- Huaping Steel (Shandong) Co., Ltd.: \$0.43/piece for 1,000+ units, suitable for high-capacity HV installations.

Factors Affecting Price

- Fiber Type:** OS2, OM3, and OM4 fibers have different attenuation and bandwidth characteristics, influencing cost.
- Armoring Material:** Steel tape, aluminum, or rodent-resistant layers increase durability but raise price.
- Sheathing:** LSZH (Low Smoke Zero Halogen) is 25–40% more expensive than standard PVC due to fire safety and environmental compliance.
- Cable Diameter and Fiber Count:** More fibers or thicker cables increase material costs.
- Certifications:** UL, CE, CCC, and IEC compliance can affect pricing and supplier selection.

Additional Considerations

- Installation Costs:** Labor for fusion splicing, trenching, or conduit installation can account for 60–80% of total project cost.
- Bulk Discounts:** Many suppliers offer reduced per-meter rates for orders exceeding 1,000 meters.
- Lead Time:** Confirm delivery schedules, especially for urgent projects; typical lead times are ≤ 4 weeks for large orders.
- Durability and Lifespan:** Premium armored cables can last 30+ years, justifying higher upfront costs.
