

Price of GYTA53-48B4 optical cable

AI Overview

The GYTA53-48B4 optical cable is priced around \$3.50 to \$5.00 per meter, depending on the supplier, order quantity, and shipping terms. Pricing Overview The GYTA53-48B4 is a double-armored, direct-buried fiber optic cable designed for harsh outdoor environments, featuring a steel tape armored core, polyethylene sheath, and gel-filled PBT loose tubes for 48 fibers. According to Alibaba listings, the price per meter typically ranges from \$3.50 to \$5.00, with flexibility depending on the manufacturer, fiber brand, and shipping arrangements. Made-in-China suppliers also offer similar pricing for single-mode G652D fibers in GYTA53 48-core configurations.

Key Features Affecting Price

- Double Armor Construction:** Aluminum Polyethylene Laminate (APL) inner sheath and Corrugated Steel Tape (CST) outer armor provide rodent protection and crush resistance.
- Direct Burial Capability:** Eliminates the need for protective conduits, suitable for underground deployment.
- Fiber Type:** Single-mode (G652D) fibers are standard, with low attenuation and chromatic dispersion.
- Length and Quantity:** Bulk orders or full container loads may reduce the per-meter cost. Minimum order quantities are flexible with most suppliers.

Supplier Considerations

- Alibaba and Made-in-China:** Offer international shipping and multiple fiber brands (e.g., YOFC, Corning) with lead times around 15 working days for large orders.
- Specialized Fiber Optic Distributors:** Websites like mefiberoptic.com and sfiberoptic.com provide detailed specifications and direct-buried installation guidance, though prices may vary based on region and shipping.

For accurate pricing, it is recommended to contact suppliers directly to confirm current rates, shipping costs, and any bulk discounts.
