

Qatar Drop Optical Cable 12 Cores

AI Overview

12-core fiber optic cables in Qatar are available in single-mode and multimode variants, with options for indoor/outdoor use, armored or unarmored construction, and from multiple approved suppliers.

Types and Specifications

Single-Mode (OS1/OS2): Ideal for long-distance backbone networks, available in indoor/outdoor loose tube designs, with options for armored (steel tape or wire) or unarmored construction. These cables support high-speed transmission and are suitable for backbone and enterprise networks (Techlogiks, Dconnect).

Multimode (OM3/OM4/OM5): Typically used for shorter distances such as data centers or campus networks. 12-core OM4 armored outdoor cables provide mechanical and rodent protection, with gel-filled loose tubes and steel armoring for durability in direct-bury or harsh environments (Techlogiks).

Construction and Features

Loose Tube Design: Fibers are placed inside gel-filled tubes, offering protection against moisture and temperature variations.

Armored Options: Corrugated steel or steel wire armoring enhances mechanical protection for outdoor or direct-burial applications.

Jacket Materials: PE (polyethylene) for outdoor durability or LSZH (low-smoke zero halogen) for indoor safety.

Rip Cords: Included under the armor for easier access to the fiber cores.

Suppliers in Qatar

Digix Technologies: Offers a full range of fiber optic cables from 2-core to 48-core single-mode and 12-core multimode armored cables, including Qtel-approved brands like CORNING, 3M, and Techlogiks.

Techlogiks: Provides 12-core single-mode and multimode cables for indoor/outdoor use, with armored and unarmored options suitable for backbone and OSP networks.

Dconnect: Supplies 12-core single-mode armored cables with central loose tube construction, available in PE or LSZH jackets, compliant with EN and IEC standards.

Other notable suppliers: Electra Qatar, Microsys Networks WLL, and Opticsense Qatar also provide 12-core fiber optic solutions for various applications.

Applications

Backbone Networks: Single...
