Sc terminal box single-mode

Overview

This terminal box provides secure and organized management of optical fibers with four SC single-mode ports, making it ideal for FTTH, FTTB, and enterprise network deployments. Its sturdy construction ensures long-lasting durability, while the wall-mounted design optimizes space. ✔ SC simplex adapters support APC/UPC-polished single mode fiber connections (Please specify "ground joint" when placing your order. 4 SC ports - High-density, standardized connectivity. This 4 strand optical fiber distribution box is used for the fusion splicing, splitting, wiring transmission and other functions of the optical transmission terminal. It is a necessary equipment in network transmission. The PPFTB-104A-SCA comes with 4 Simplex SC/APC Coupler Ports installed with 4 Simplex SC/APC Single mode Pigtails ready for splicing. Indoor. ODF series indoor optical fibre distribution box is used in the terminal access link of FTTH system,It is a device that splices, distributes, and splits optical fibres and provides protection and management of optical fibres.
