

Tajikistan tariff costs 8-shaped optical cable 2 cores

AI Overview

Import tariffs for fiber optic cables in Tajikistan generally range from 0% to 15%, with the average trade-weighted rate around 7%, though exact rates depend on the specific HS code and customs classification. Tariff Overview Tajikistan maintains a relatively liberal tariff regime, with most goods, including fiber optic cables, subject to import duties between 0% and 15%, averaging about 7% for trade-weighted imports. The Customs Code aligns with WTO standards, but evaluation methods for customs purposes may differ, potentially affecting the final duty calculation. For precise duty rates, the WTO Consolidated Tariff Schedules or the World Bank WITS database can be consulted to identify the HS code corresponding to 8-shaped, 2-core optical cables. VAT and Additional Taxes Imported goods are also subject to Value Added Tax (VAT). For non-cash transactions, VAT is currently 14%, while cash transactions remain at 15%, with further adjustments planned in 2027. This VAT applies to imported fiber optic cables in addition to any customs duties. Market and Import Data Tajikistan imported 2,295 shipments of fiber optic cables from September 2023 to August 2024, primarily from Russia, Turkey, and Uzbekistan. This indicates a well-established supply chain and potential for competitive pricing. The import data includes details on shipment quantities, suppliers, and pricing, which can help estimate landed costs for 2-core optical cables. Practical Guidance HS Code Identification: Determine the exact HS code for 8-shaped, 2-core optical cables to calculate the precise tariff. Customs Clearance: Prepare for bureaucratic procedures; legal support may be required for smooth importation. Cost Estimation: Include both import duty (0–15%) and VAT (14–15%) in total landed cost calculations. Supplier Selection: Consider sourcing from major exporters like Russia, Turkey, or Uzbekistan to optimize logistic...
