

UK Cost-Effective Fiber Ethernet Switch 100G

Overview

FS 100G Ethernet Switches with high speed and port density give you cost-effective options to incrementally upgrade and have flexible bandwidth across the existing infrastructure in enterprise campus network. Learn more! A versatile 100 Gigabit switch that offers speed, value, and diverse. Affordable, compact, energy-efficient 100 Gbps networking anytime. These switches present a great entry-level managed solution for the SMB just starting out or the already established business looking to bring a managed solution to the. This category offers switches of various designs with a maximum data rate of up to 100G. Global Recycled Standard (GRS) certified products contain recycled content that has been independently verified at each stage of the supply chain, from the source to the final product and meet social, environmental, and chemical requirements. The purchase of Global Recycled Standard (GRS) certified.
