

## What bridge is Oman building

### Overview

Al-Aija Bridge is a newly designed iron bridge, which was built to facilitate the passage of cars and pedestrians between the Omani governorates. Today, the bridge is one of the city's distinctive architectural attractions, as many movie scenes were filmed on it. The suspension bridge crosses an estuary and connects two suburbs of Sur in Oman. The concrete slab, 30 cm thick and made of prefabricated elements, is supported by steel cross girders at 3 m spacing. List of Top 10 Biggest Construction Projects in Oman 2025: According to Project Cost 1. Great Blue City Development (Al Madina Al Zarqa) Al-Madina Al-Zarqa is. The Batinah Expressway is a 256 km 8-lane highway in Oman that connects the Muscat Expressway (a relief road in Muscat, the capital of Oman ) at Halban with the United Arab Emirates border at Khatmat Malaha. In this article, we offer you.
