Electrical distribution | modular enclosure | box | distribution board ...

The electrical distribution board is designed for the safe installation of electrical equipment, circuit breakers, relays, controllers, and other DIN modules for both indoor and outdoor use.

Distribution board

OverviewLocation and designationNorth AmericaUnited KingdomManufacturer differencesTheatre lighting

For reasons of aesthetics and security, domestic circuit breaker panels and consumer units are normally located in out-of-the-way closets, attics, garages, or basements, but sometimes they are also featured as part of the aesthetic elements of a building (as an art installation, for example) or where they can be easily accessible. However, current U.S. building codes prohibit installation of a panel in a bathroom (or similar room), in
